

## OT 240W

- Recommended for use in the first feeding and fingerling stages.
- The white spectrum light mimics the natural stimulation produced by sun light, particularly suitable for hatchery and RAS facilities.
- The white spectrum emitted stimulates the photoreceptors of the retina, allowing a better visualization of the pellet by activating the feeding.
- Highly versatile luminaire with dimming function allows you to fit with different types of tanks

## Features:

- Light Efficiency: 150lm/W
- High bright EVERLIGHT LEDs
- Optics 120°
- Excellent thermal management design
- IP65/IK08 rating for outdoor usage
- Hook hanging and U-bucket installation are available
- Energy savings, no UV and IR radiations, emits low heat
- 1-10V dimming for low power consumption
- DLC/ETL/cETL/SAA/C-TICK/FCC/CE/RoHS approval

## Specificacions:

<b>Model</b>	OT 240W
<b>Wattage</b>	240W
<b>Beam Angle</b>	120°
<b>Color Temperature</b>	6000K
<b>Input Voltage</b>	AC100-277V, 50-60 Hz
<b>LED Brand</b>	Everlight
<b>CRI</b>	Ra>80
<b>PF</b>	>0.9
<b>Operation Temperature</b>	-35°C ~ 55°C
<b>IP Rating</b>	IP65
<b>IK RATING</b>	08

## Dimensión:
